Jl.Langsar No.62 Rt.02 Rw.01 Desa Sebang Lagoi, Kec.Teluk Sebang, Kab. Bintan

A Computer science student driven by a genuine passion for software development. An enthusiastic learner, I strive for continuous improvement, embracing the diverse realm of technologies. Well-rounded and dedicated to staying abreast of the ever evolving tech landscape, I approach challenges with curiosity

WORK EXPERIENCE

PT. Bintan Resort Cakrawala - Bintan, Indonesia

Jun 2022 - Aug 2022

IT Intern

- In my role as an IT intern, I actively assist colleagues in addressing various technical issues, ranging from hardware repairs to providing software guidance. With a practical approach, I strive to create an efficient and technology-friendly work environment.

CV. Kalingga Keling Jati - Jepara, Indonesia

Aug 2023 - Dec 2023

Frontend Developer Intern

- During my front-end internship, our team was tasked with developing an ERP system for the company. As the front-end developer, I improved my skills using modern technologies like JavaScript for dynamic features, Tailwind CSS for efficient styling, and Alpine.js for interactivity. I not only designed an appealing ERP interface but also collaborated seamlessly with the Laravel-backed backend team to ensure a smooth integration between the frontend and backend.

EDUCATION LEVEL

MAN Insan Cendekia Batam - Batam, Indonesia

Jul 2018 - Jul 2021

High School in Science and Math

Universitas Negeri Semarang - Semarang, Indonesia

Jul 2021 - Jul 2025 (Expected)

Undergraduate in Computer Science

ORGANIZATIONAL EXPERIENCE

SAPALA at MAN Insan Cendekia Batam - Batam, Indonesia

Jul 2018 - Jul 2019

Member

- As a member of SAPALA (Santri Pecinta Alam), I actively participate in tree planting, environmental cleanups, and sustainability education. I practice Islamic values in efforts to preserve and protect our surrounding environment.

Skills, Achievements & Other Experience

- **Hard Skills:** HTML, CSS, Javascript, Typescript, PHP, Laravel, ReactJS, NextJS, TailwindCSS, Redux, REST API, MySQL, MongoDB
- **Soft Skills:** Analytical Thinking, Proactive Learning, Creativity, Critical Thinking, Problem-Solving, Team Work, Communication
- **Interest:** Web Development, Mobile Development, AI,
- **Achievements** (2021): Bintan Resorts HEA Scholarship awardee
- **Projects** (2023):
 - ERP for CV Kalingga Keling Jati is developed using Laravel for backend and JavaScript, AlpineJS, and Tailwind CSS for frontend. The project optimizes furniture production, inventory, and distribution management. It enhances operational efficiency, accelerates decision-making, and ensures timely customer demand fulfillment.
 - Todo List. The "Todo List" project utilizes Next.js with Typescript, Redux, Prisma, and MongoDB. Users can log in, create, edit, and delete tasks, with an additional feature to view others' task lists. Integrating technologies for seamless and collaborative task management.
 - Personal Portfolio Website Project: Crafted with React, TypeScript, and GSAP, my personal portfolio showcases a dynamic blend of creativity and technical expertise. The site incorporates seamless animations using GSAP, providing an engaging user experience. With React and TypeScript, it ensures a robust, scalable, and interactive platform to present my skills, projects, and achievements.
- **Certificates** (2023):
 - Beginner's Typescript by Total Typescript:
